2026 SAIPEC

Sub Saharan Africa International Petroleum Exhibition and Conference

Comes Alive Soon

With more than 1,500 top speakers, partners, sponsors, exhibitors and attendees

PREAMBLE

From Nigeria to South Africa, and from Kenya to many others, Sub-Saharan African nations are richly endowed with natural and other resources, making them major investment destinations in the continent.

These investments by International Oil Companies, Independents, and indigenous companies are mainly fueled by policies, incentives, and legislations put in place by various governments. They are also driven by other factors, especially the efforts of the Petroleum Technology Association of Nigeria (PETAN), an association of Nigerian Indigenous Technical Oilfield service companies in the upstream and downstream sectors of the oil industry.

PETAN has been promoting opportunities in the industry through its Sub-Saharan International Petroleum Exhibition and Conference, SAIPEC. This year's event, scheduled to hold from February 10-12, 2026, is bigger and better, due to several reasons, including the quality of speakers, partners, sponsors, and exhibitors from all parts of the world.
