

2025 SAIPEC

Sub Saharan Africa International
Petroleum Exhibition and Conference

Comes Alive Soon

With over 1,000 top speakers, partners,
sponsors, exhibitors and attendees

PREAMBLE

From Nigeria to Namibia and others, the Sub-Saharan African nations are so richly endowed with natural and other resources that they have become major investment destinations in the continent. These investments by the International Oil Companies, Independents and indigenous companies are mainly fuelled by policies, incentives and legislations put in place by the various governments.

They are also driven by other factors, especially the efforts of the Petroleum Technology Association of Nigeria (PETAN), an association of Nigerian Indigenous Technical Oilfield service companies in the upstream and downstream sectors of the Oil industry. PETAN has been promoting opportunities in the industry through its Sub Saharan International Petroleum Exhibition and Conference, SAIPEC.

This year's event, scheduled to hold from February 11 --13, 2025, promises to be even bigger and better, due to many reasons, including the quality of speakers, partners, sponsors and exhibitors from all parts of the world.

MEDIA & ASSOCIATION PARTNER

The Association of African Energy Journalists and Publishers, AJERAP (<https://ajerap.org/>) is impressed with the efforts of the PETAN and the organisers to hold this event. Consequently, we have joined the league of SAIPEC 2025 as media and association partner.

With the involvement of our members from the 54 African nations, we look forward to making significant contributions toward the success of the event.

By staying with AJERAP, you are sure to gain deep insight into all issues before, during and after this year's SAIPEC, thus enabling you to make well informed decisions.
